

Universal Healthcare

Universal Healthcare's Pre-Registration Program

Preparing for a short-term rehabilitation stay is important to help you or your loved-one feel more comfortable about choosing nursing & rehabilitation services. Studies have shown that people respond to treatment better and recover more rapidly when they know what to expect and are more familiar with their environment.

Universal Healthcare offers a special pre-admission program for patients and their families. This program is designed to familiarize patients and their families with our services and environment before a scheduled surgery. Patients will also be given the opportunity to complete all necessary paperwork at this time so that the day they are transferred from the hospital can be a day focused on rest and recovery.

You'll receive information on:

- Specialized services offered at Universal Healthcare
- Accommodations
- Other general information
- You'll take a tour of the building including our rehab gym
- You'll meet the nurses & therapists who will be caring for you
- Insurance requirements
- There will be time for Q&A

Pre-Admission Checklist

- Medicare Card - Part A & B
- Insurance Cards
- Medicaid Card (If applicable)
- Social Security Card
- Durable Power of Attorney / Guardianship Documents
- Advance Directives / Living Will
